

Implementation of CMP in K.V.NFR Maligaon

1. Implementation of CMP & its objectives--

CPM has been implemented in Kendriya Vidyalaya, Maligaon since 2008 to cater the need to revamp the primary education by addressing to the various dimensions suggested as Quality indicators for CPM.

Provision of the infrastructure in the school is made and the activities are carried out in the primary classes as per the guidelines envisaged in the CMP document.

The Primary teachers of our Vidyalaya are set with a missionary zeal and Endeavour to implement all the guidelines to achieve the CMP standardization.

Mrs. Bandana Baroah(HM) and Mrs.Zeenat Fatema Rashid(PRT) from KV.Maligaon was selected to represent Guwahati Region in the 6 days workshop for Master trainers in CMP for Primary Classes which was conducted at K.V.S. ZIET,Mysore from 5th to 10th Oct, 2009 .One HM and one PRT from each region around the country attended the CMP Master trainers Programme for Qualitative Improvement of the Primary Education in KVs and they will; in the next level; train other teachers at Regional level.

2. Adequate support system developed in the Vidyalaya--

One separate Primary Resource -cum-activity Room ;with all necessary equipments as per the guidelines envisaged in the CMP document is made. A separate Risograph is provided for primary section and learning materials in form of worksheets are provided to students .The Primary Resource Room is equipped DVD , LCD projector , colored TV ,7 Computers, whiteboard. A facility for internet facility is in due process. Teachers use download materials as well as power-point presentation which is also reflected in their dairy.

An advance of Rs.2000 per month is provided to the headmistress to procure teaching learning material (TLM) for conduction of indoor and outdoor activities and the HM ensure that the TLM purchased or developed by the teacher is actually used in the classroom by teachers and students and records .

There is a provision for classroom library at Primary level with a variety of books as per the liking of the children. Fictions, educational comics, educational games/ puzzles, children stories, children magazines, children encyclopedia etc makes a rich library.

3. Implementation & Monitoring of the Evaluation system--

1) School level—The HM carries out periodic inspection of the primary classes to assess the effectiveness of teaching learning and is followed by discussion for suitable improvement. Teachers are stressed to use of necessary teaching learning materials, teaching aids , worksheets in classroom .The Principal too visits the classrooms for the supervision.

Meetings on CMP to assess the progress of the achievements and discussion for suitable

improvement are held at regular intervals.

ii) Cluster level -Kendriya Vidyalaya, NFR Maligaon with other 4 Kvs is under Borjhar cluster. There is a cluster level work shop where the HMs (& the venue Principal) of 5 schools sit together to assess the progress of the achievements of the learners and other Activities of the Vidyalaya. Our reports and checklists are being submitted for perusal and monitoring at regional level.

iii) Regional level-Our HM Mrs. Bandana Baroah attended the Annual 2days workshop of HMs and Principals at the regional level held in September 2009 at KV Upper Shillong for developing action plan for further development.

4. Child friendly curriculum & timetable—

Our school has 3 sections with 17 teachers, 1 computer teacher headmistress, 1 spoken English teacher and HM. Approx student-teacher ratio is 45:1. Each teacher is allotted with 40 periods.

For each subject at the Primary level two block periods is allotted once in a week. There are 2 teacher system in class I & II and 3 teachers in class III and IV & 4 teachers in class V.

Our school ensures that that the curricular meets the various developments needs of students including academic, social, physical and ethical values.

5. Provision of exposure to children to Nurture their talents—

At school level—Housewise CCA competition like drawing, poem recitation, storytelling, dance, singing, quiz etc is conducted. Various games and sports activities are also organized.

An exhibition on models prepared from waste materials was organized by the primary students.

Our Vidyalaya celebrated Grand -Parents Day for students in Primary section.

A Community lunch is organized to develop the attitude of caring/sharing & to expose children to diverse food habits of regions and states.

Our School conducted the local educational excursion to the Science Museum.

Educational Film shows are also shown to the children in a cycle of 15 days.

Contributions by the primary students was sent to the KV.Narangi for the publication of News letters from Guwahati Region .

6. Provision of inspired learning environment to children–

The school ensures a safe secure learning environment .For this necessary learning materials, aids , equipments and space for doing together working together ,playing is provided. A child-centered learning approach is adopted where the teacher attempts to provide learning situation that gives children to observe, explore and develop understanding of various concepts and this minimizes Rote learning. To create an atmosphere for child inspired learning the practices like corporal punishment and discriminations are avoided .Issues like adequate ventilation, adequate illumination, adequate drinking water, cleanliness are considered well to provide inspired learning environment to children.

There is also a yearly health checkup facility done for the students. The health checkup reports are also informed to those guardians whose wards need some treatment of either ENT, Eyes or dental etc.

Parents teachers meeting are organized at regular intervals.

Innovative project undertaken by Our Vidyalaya

Our Students of class V ;under the guidance of English teacher Mrs. Zeenat ;has completed the online project "Wonderful Waste" which is an exemplary project based learning connecting textbook knowledge to outside life as required in NCF 2005.It is the first PLI project from India selected as spotlight project in THINKQUEST.

An exhibition on models prepared from waste materials was organized by the primary students to REDUCE & REUSE wastes.

.....We keep our sincere efforts on..... It is hoped that KVNFR Maligaon leads towards glory .
